Communication is Key to Success

1. What do you want to say?

2. What do you want to tell to the audience?

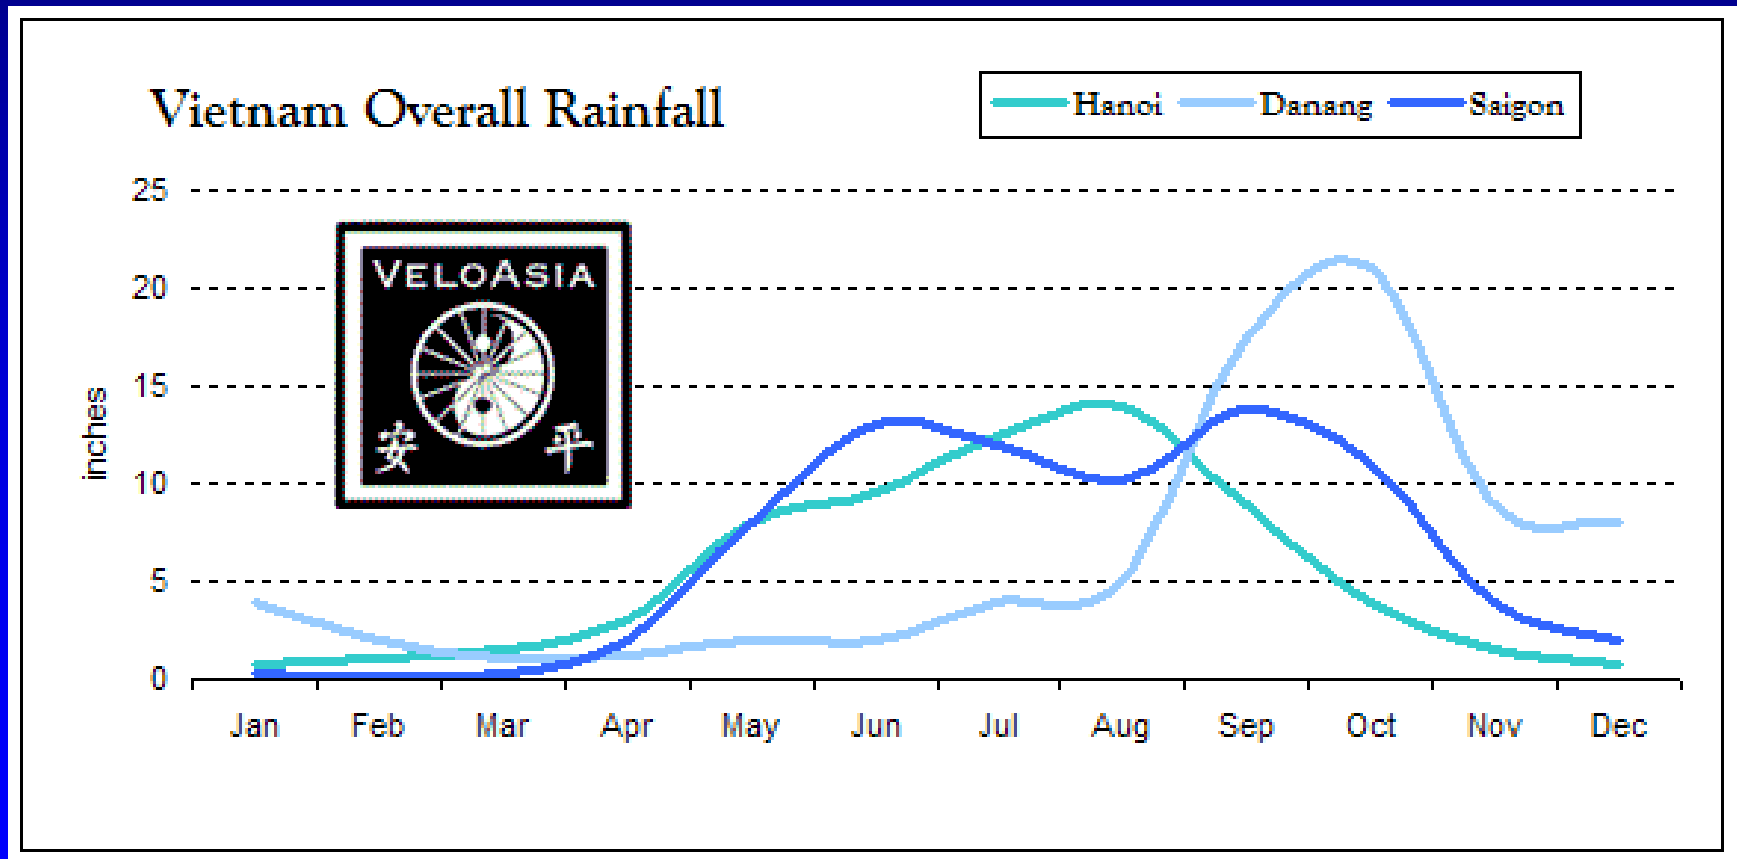
October is not a Good Month for Visiting Danang because of Heavy Rain



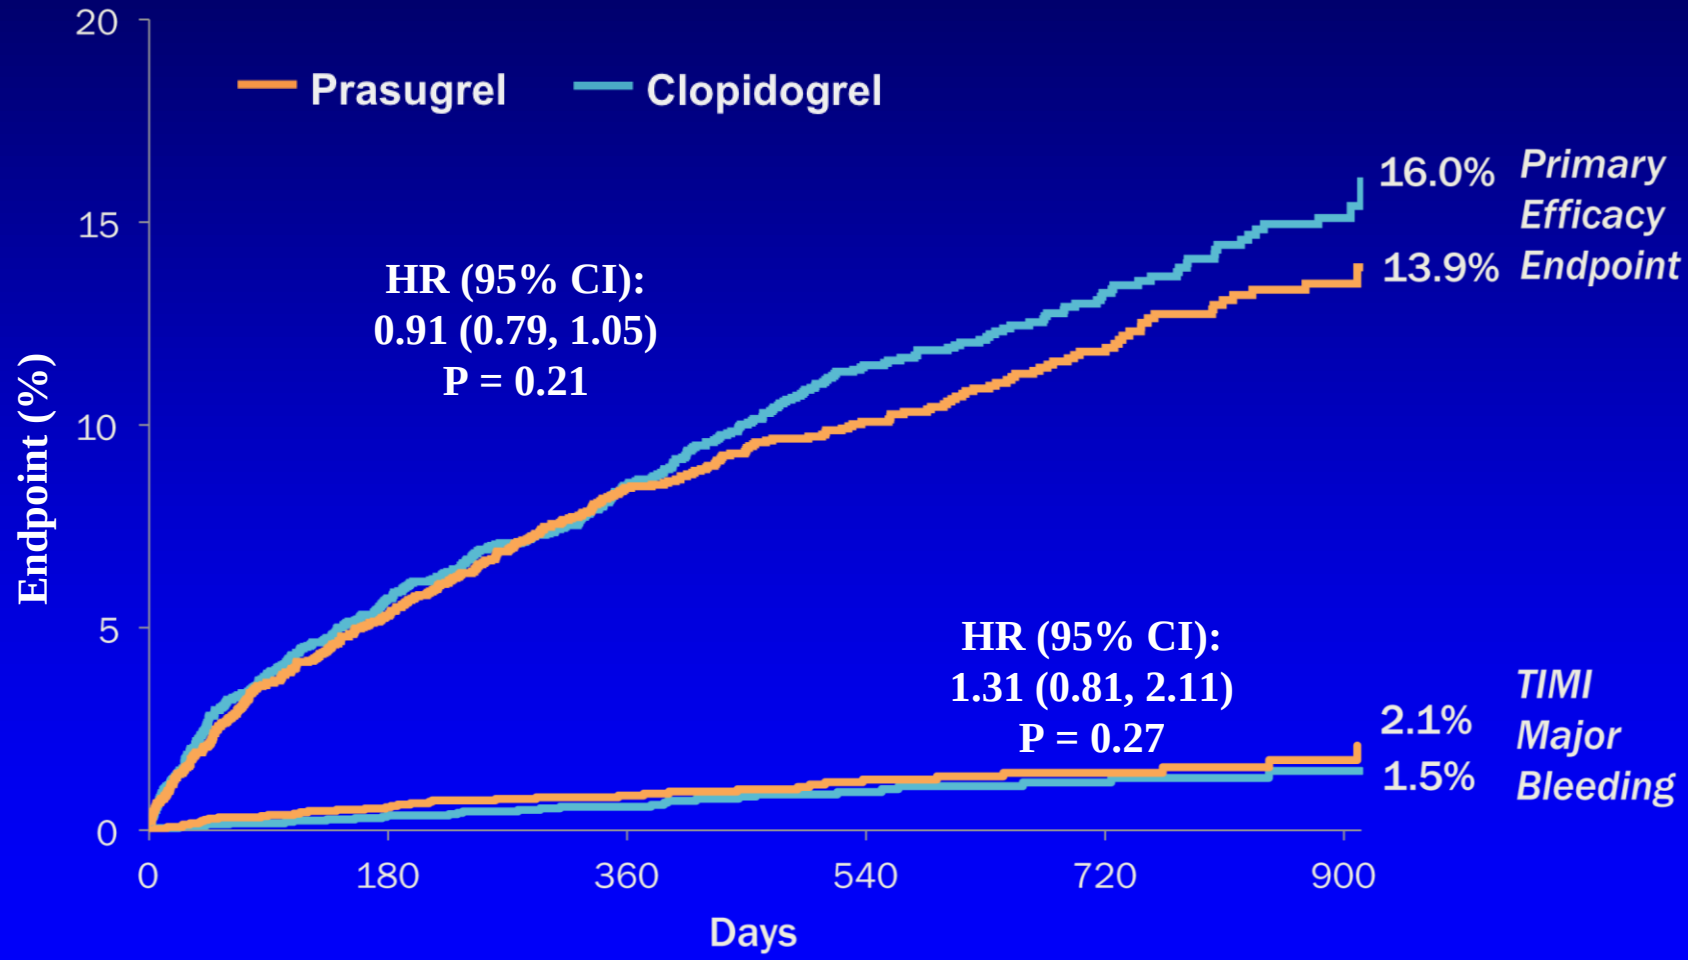
Do you want to give information or do you want to send a Message ?

3. SO WHAT?

4. Does it matter to me or my patients?

Primary Efficacy Endpoint and TIMI Major Bleeding Through 30 Months

(Age < 75 years, N = 7243)



Roe MT NEJM 2012

The Mortality is Lower

5. How to get the message across

One Idea Per Slide

Why should we be concerned regarding Risk of Exercise?

- Physical activity pattern during adulthood/level of fitness are more strongly associated with Heart Disease and all-cause morbidity/mortality than traditional risk markers
- Small investments in activity yield large health outcome benefits
- Higher level of fitness/physical activity are associated with lower health care costs
- Few Americans are physically active enough to gain health benefits
- Not enough is being done to incorporate physical activity into the health care paradigm

Slide Should not Be Too Crowded

- 1. **EIGHT words per slide**
- **2. FIVE lines for slide**

Example: Thế nào là quan trọng?

- 1. Có tầm ảnh hưởng to nhất va tốt nhất
- 2. Xác lập mức độ trầm trọng về tien luong
- 3. Xác định được cơ chế nguyen nhan tốt
- 4. Tiên lượng thường có ý nghĩa tốt nhất
- 5. Tiên lượng thường có ý nghĩa manh nhất

- We can read five times quicker than you can speak, the audience is usually ahead of you. That means you'll annoy them when you continue reading the slides they already finished reading themselves.

Why does a patient die after occlusion of the diagonal, obtuse marginal or posterior distal artery or right coronary artery?

对角支、钝缘支或后降支闭塞后的患者为什么会死亡呢?
